

# Be wise to scams in disguise

When you're shopping it's important to look out for scams and spot if a deal really is a deal.

- ✔ Is the price consistent with the price of the product elsewhere? If it is suspiciously cheaper, it's probably fake
- ✔ If you are buying online, do a search for the retailer and see if they have any customer reviews
- ✔ Never pay by bank transfer. If you are purchasing an item over £100, use a credit card
